TOWN WARRANT

The State of New Hampshire.

To the inhabitants of the Town of Freedom in the County of Carroll in said state, qualified to vote in town affairs.

- 1. To choose all necessary town officers for the year ensuing.
- 2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation for the same.
- 3. To see what sum of money the town will vote to raise to pay for breaking roads the past winter.
- 4. To see if the town will accept state aid for construction of roads and raise money for same.
- 5. To see what sum of money the town will raise for maintenance of state road.
- 6. To see what sum of money the town will vote to raise for the use of hydrants.
- 7. To see what sum of money the town will vote to raise for Old Home Week.
- 8. To see what sum of money the town will vote to raise for street lighting.
- 9. To see what sum of money the town will vote to raise for cutting bushes.
- 10. To see what sum of money the town will vote to raise for the library.
- 11. To see what sum of money the town will vote to raise for decorating the soldiers' graves.
- 12. To bring in your ballots upon each of the questions submitted by the convention to revive the constitution relative to the amendments proposed by said convention at a session held on January 28, 1921.
- 13. To see what action the town will take in exempting the box factory of Merrow & Milliken from taxation.

Given under our hands and seal, this 16th day of February in the year of our Lord nineteen hundred and twenty-one,

Wesley Wentworth, Selectmen Fred L. Godfrey, Geo. I. Philbrick, Freedom.

REPORT OF BOARD OF HEALTH

The Board of Health wishes to call general attention to

the matter of leaving dead animals without burial.

It is a source of danger as it may cause disease. It is unsightly, and in short constitutes a nuisance and is punishable by law.

Anyone having bad sanitary conditions around their homes, especially around the outbuildings, should remove

them at once.

Cash on hand February 1, 1922

Very few cases of infective disease have occurred during the year, with a very low rate of mortality.

E. B. Andrews, Member Board of Health.

ANNUAL REPORT OF THE SCHOOL BOARD OF THE TOWN OF FREEDOM

SCHOOL BOARD

Arthur A. Bennett, Manson B. Godfrey, Alice E. Weeks, term expires 1922 term expires 1923 term expires 1924

Superintendent of Schools
HAROLD C. WINGATE

Medical Supervisor Dr. E. B. Andrews

REPORT OF SCHOOL BOARD

Freedom, N. H., February 15, 1922.

The school board herewith submits to the citizens of the school district of Freedom the following report:

The report gives the financial standing of the district, together with the receipts and disbursements for the preceding completed school year, September 1, 1920, to June 30, 1921.

The appropriation of \$100 by the district for repairs was used to a good and profitable advantage.

At the Chase and Swett Hill schoolhouses all the new work on the outside was given a coat of paint and the win-

dows put in shape.

At the village schoolhouse the ceilings in both rooms were painted to conform to the requirements of the state, also the floors of both rooms, halls and stairs were painted. Windows repaired and other wood work done in closets and around vault.

The appropriation of \$100 to be used to pay the interest and be applied on the debt, has been used to cut down the debts, other money being obtained to pay the interest.

We believe our schools are accomplishing more this year than any previous year and that the course of study for the grammar grades, which is now being taught, gives the scholar a much more liberal education.

The new methods introduced in the lower grades are advancing the scholars more quickly and better fitting them for the work of the higher grades.

\$4,198,67

The school board appreciates the work done by the teachers and the superintendent, also the kindness of citizens who have aided in making our schools a success.

This report includes the report of our superintendent, also

the report of the Medical Supervisor.

Respectfully submitted,

ARTHUR A. BENNETT, MANSON B. GODFREY, ALICE E. WEEKS.

5—For payment of other statutory	
requirements,	125.00
6—For superintendent, excess salary,	88.23

REPORT OF SCHOOL PHYSICIAN

More defects appear upon examination of school children than the casual observer would believe existed.

Parents and guardians who have not paid attention to the warning given them from time to time in regard to their children's condition sent them by school authorities should remember that their health and deportment in school will both be greatly improved if these handicaps are removed.

The defects pertaining to the ear, eyes, nose and throat should receive immediate attention.

This being done the pupil will be enabled to pursue his school work far more successfully and with greater ease and comfort.

E. B. Andrews,
School Physician.

SUPERINTENDENT'S REPORT

To the School Board of Freedom:

During the past year three schools, the two rooms at the Village and the Chase School, were maintained at Freedom. The former were operated for the full thirty-six weeks, while the latter was maintained for twelve weeks in the fall

and ten weeks in the spring, the pupils of that district being transported to the village for the rest of the year. Miss Margaret Hunter taught this school for the fall term, and Gerry K. Wormwood for the spring term. The two teachers at the village, Phil A. Bennett and Mrs. I. S. Jones, continued their services throughout the year, and real progress was made in many ways. The resignation of Mrs. Jones was received last June, much to the regret of those interested in the school. Fortunately, however, we were able to secure as her successor Miss Ruth Furlong, a student for the past two years at Cornell University. Mr. Bennett, I am glad to report, remains in charge of the upper grades this year. The village schools alone are now being operated, and the opportunity is offered to maintain schools of high standard. I am pleased thus far with the work that was accomplished last term, and predict a very satisfactory year.

The general attendance last year showed a little improvement of the year previous, but it is still far from satisfactory. The law does not give the parent the right to determine whether or not his child shall attend school, but on the contrary places upon the parent the responsibility for the child's attendance. The essential part of the attendance law follows:

- Section 1: Every child between eight and sixteen years of age shall attend the public school to which he is assigned or an approved private school during all the time the public schools are in session unless he is more than fourteen years old and has completed the studies prescribed for the elementary schools, or has been excused from attending on the ground that his physical or mental condition is such as to prevent his attendance or to make it undesirable.
- Sec. 2. Every person having the custody of a child shall cause the child to attend such a school during all the time the public schools are in session.
- Sec. 4. Any person who does not comply with the requirements of the preceding sections shall forfeit ten dollars for the first offense, and twenty dollars for every subsequent offense for the use of the district.

One of the greatest problems with which the school board has to deal concerns the disposition for schooling purposes of pupils in the outlying districts. Freedom finds herself in the same position as many other towns in the state that have been undergoing a depopulation of their more remote sections. Swett Hill at the present time has three pupils; Young's Hill has four: in the Chase School District there are five pupils, and at the head of Ossipee Lake three. It seems fairly obvious that it would be unreasonable to maintain schools in those districts. While I deplore the fact that it is necessary for the children,—especially the younger ones,-to ride long distances each day during the cold weather, there seems to be no other solution of the problem. And looking at it from the other point of view, these pupils are receiving much greater advantages, educationally, by becoming a part of the larger group at the village than they could get, except in rare cases, from attending a very small school in their particular district.

While the State Board of Education has never made any ruling upon the question of when a school should, or should not, be operated, but has left the matter to the decision of the local school board, it may be of interest to you to know the opinion, recently expressed, of a prominent state school official upon this subject. Stated briefly, he said that schools should not be consolidated in districts where there were fifteen pupils who could either walk or be easily carried to the school, provided that the schoolhouse was wholesome, attractive, well-equipped and serving as a community center, and provided, also, that the services of an experienced, contented rural teacher could be secured for the school. He further added that in case school attendance fell below twelve, transportation should be considered; that schools should never be maintained for six or less pupils, and if they were so maintained that state aid should not be allowed for their support.

It is gratifying to know that five of the pupils who graduated from the eighth grade last June are attending high school or academy this year. It is unfortunate that such

schools are not more accessible to Freedom, so that all of our pupils who desired an education beyond the eighth grade might be able to obtain one. At the beginning of the present term, in order to be of some service to such pupils, we added to the work of the eighth year, a course in Literature, a special set of drills in business forms, and general science. It is entirely true that a Junior High School could be of great service to the children of Freedom, but the question of whether or not to establish such a school needs careful consideration, particularly with respect to its probable expense to the town. If any group of the townspeople feel interested in this matter, and will so express themselves to me, I shall be pleased, in co-operation with the school board, to consider the matter with them.

In conclusion, I wish to express to those individuals who have directly contributed to the welfare of our school this year, my appreciation of their efforts. Such interest is a contributing factor of great importance towards the good work of our school. In particular, let me thank Mrs. Lincoln for her gift of singing books, Mrs. Nutter for the loan of an excellent encyclopedia, and Mr. Weed for his interest in securing funds for the purchase of much needed dictionaries.

Respectfully submitted,

HAROLD C. WINGATE,
Superintendent.
